

Kyan spent several hours constructing the 110-piece Meccano Xtreme RC 4x4. The pay-off was a cool, multi-function radio-controlled car with bumpers and studded wheels to whip around the house. From Toy Traders, rrp \$79.95.

Joe was thrilled to bash out a tune on the Sesame Street piano. The sturdy piano is bright, colourful and ideal for budding musicians. From Target, rrp \$49.99.

After building the Tonka Chuck & Friends Chuck's Stunt Park, Jasper enjoyed hurtling the Chuck toy down the track. With lights, sounds, moveable pieces and a hand-crank elevator, there's plenty of action. Jasper rebuilt the set often, to his own designs. From Hasbro, rrp \$79.99.

# MULTI bandz™

*Get with the times.*

## With Multibandz learning maths is fun and easy!

**Multibandz offer a new and fun way for kids to learn the numeric times tables.**

The set of 12 brightly coloured bands each contain one of the times tables levels. The 11 and 12 times tables come in silver and gold - and some of the bands in the collection even glow in the dark!

Kids are encouraged to advance their learning in steps where each new times table band is the reward for conquering the previous level - and their key aim is to 'go for gold'.

**Learning maths has never been so much fun.**

So, this Christmas, why not stuff their Christmas stocking with some entertaining and educational Multibandz!
